

Global Production Engineering and Management,

Starting semester: Autumn (october-february)

Zatwierdzone decyzją Rady Wydziału IP nr 7/2018 z dnia 30.01.2018r.

Subjects	Hours	ECTS	subjects block names	I	II	III	IV
Design & Analysis of Manufacturing Systems	W:60 L:12 C:48	10	International production engineering	120			
ICT and CAx in Production	W:30 L:12 C:18	5	Specializing modules	60			
International Industrial Marketing	W:30 C:30	5	Business management	60			
Operations & Production Management	W:30 L:12 C:18	5	International production engineering	60			
Quality Engineering & Management	W:30 C:30	5	International production engineering	60			
Industrial Technologies	W:60 L:20 C:12 P:28	10	International production engineering		120		
International Trade, Business and Economics	W:60 C:60	10	Business management		120		
Project, Innovation, Technology Engineering & PLC Management	W:60 C:60	10	Business management		120		
Intermediate Integrating Project	P:120	10	Specializing modules			120	
Maintenance Management	W:30 C:30	5	<i>Electives</i>			60	
Modeling of Production Systems and Supply Chains	W:30 C:30	5	<i>Electives</i>			60	
Modeling of Manufacturing Processes	W:30 L:30	5	<i>Electives</i>			60	
Techniques of Industrial Engineering	W:30 C:30	5	International production engineering			60	
Global Operations Strategy, Logistics & SCM	W:30 L:8 C:22	5	Specializing modules				60
International Accounting and Finance for Production Engineers	W:30 C:30	5	Economics/Finance				60
Master thesis	P:240	20	Master thesis				240
		120	in semester (hours):	360	360	360	360

W - lectures

L - laboratories

C - exercises

P - projects

exams
