

Our company, located in Switzerland, has stood for first-class premedia solutions for over 45 years. In publishing and packaging, we see ourselves as an innovative partner for publishers, marketing teams, agencies and printing companies. The services range from high-quality image processing, stylish layouts, efficient data preparation to interactive 3D product images, printing plates for packaging printers, print quality services, process optimization and cloud services. We rely on new technologies, agile working methods and see ourselves as specialists for our customers.

With offices in Switzerland and Germany, in 2025 we are expanding our search for printing and graphic industry specialist to the polish market.
